

# Hello!

## Rob Walsh

web designer

### mission statement

I'm a designer for the web. The web comes in a lot of forms: web apps, plain old websites, and mobile sites. I provide excellent experiences for them all. I'm a believer in the idea that a person's behavior can be broken down into a function of that person and their environment.

I create environments that make it easy for people to achieve their goals.

### recent projects

MoreXchange/Chicago, IL 2010

product designer/visual designer

I provided UI design, visual design, and front end code for this Chicago Ruby on Rails powered startup targeting the mortgage industry.

[www.moreexchange.com](http://www.moreexchange.com)

My Florida County /Chicago, IL & Tallahassee, FL 2009-2010

UI designer/visual designer

I led this ground-up redesign of the State of Florida's child support payment, traffic ticket payment, and official record ordering portal.
